

Shivani Verma

Projects

Healthy planet Website

- **Headless WordPress + Next.js:** Leveraged the flexibility of headless WordPress and the power of Next.js to create a dynamic and responsive website focused on sustainability.
- **Tech-savvy design:** Utilized HTML5, Sass, and JavaScript to craft a visually appealing and user-friendly interface, ensuring smooth navigation and information accessibility.
- **Data on demand:** Implemented GraphQL for efficient data fetching and management, delivering a content-rich experience without compromising performance.
- **Seamless collaboration and deployment:** Employed Git for version control and Vercel for secure and reliable hosting, enabling efficient teamwork and smooth updates.
- **Beyond the basics:** Expanded my skill set by mastering Git workflows, Vercel deployment strategies, performance optimization techniques, and even email automation with Mailer.

Swiggy Clone & YouTube CLone & NetflixGpt

- **Mastered React and Tailwind** to build responsive UIs for Swiggy, YouTube, and Netflix, replicating search, authentication, and API integration with a focus on user experience. (Combines technical skills and user focus).
- **Seamless API integration:** Connected the interface to a mock API, simulating real-time search, filtering, and ordering functionalities.
- **Redux & Jest for stability:** Leveraged Redux for state management and Jest for unit testing, ensuring smooth user experience and reliable applications across all three projects.

Yugantar & HSB

- **Single-handedly crafted a custom WordPress theme:** Leveraged HTML, Sass, PHP, and jQuery to build a

FRONTEND DEVELOPER

- 2yr experience Full-Time Job

SKILLS

Frontend Development (2 years of experience):

- HTML5, CSS3 (Sass, Tailwind CSS), JavaScript (ES6), jQuery
- React.js (Hooks, Context API, Redux), Next.js
- GraphQL, REST API integration
- Experience with Webflow, WordPress (custom theme development), and Shopify

Backend Development :

- Node.js, Express.js, MongoDB (Recent Exploration)
- API Development, System Design.
- Optimization, Security, Authentication
- Version Control (Git), CI/CD (Jenkins, GitLab CI)

Deployment and Testing:

responsive and fully-functional theme, demonstrating proficiency in both frontend and backend development.

- **Testing for quality:** Implemented comprehensive testing procedures to ensure optimal performance and user experience on all devices, showcasing attention to detail and commitment to delivering robust solutions.
- **Mastered responsive design:** Built a theme that adapts seamlessly to different screen sizes and devices, prioritizing user accessibility and engagement across varied platforms.

Prodapt

This website is an embodiment of clean lines, purposeful pixels, and the joy of pure code. Built with a focus on simplicity and performance, it leverages the power of:

- **HTML5:** The bedrock of web building, ensuring structure and clarity.
- **Liquid JS:** A powerful templating language that injects dynamism without compromising elegance.
- **Sass:** For crafting beautiful and maintainable styles that bring the UI to life.
- **JavaScript:** Adding essential interactivity and responsiveness.
- **Eleventy Static Site Generator:** The engine that drives it all, generating lightning-fast static pages for a seamless user experience.

EXPERIENCE

ICD , Saket—Frontend developer (2.3yr) with internship

Feb 2022 - PRESENT

:-I gained deep **UI creation** skills through **solo projects**, mastering **headless CMS** and crafting excellent user experiences. Always learning, I optimized **Next.js and React apps**, explored platforms like Shopify and **WordPress (custom theme)**, and even learned **backend skills** with MongoDB and Node.js. This journey at ICD made me a versatile Frontend Developer, confident in tackling the modern web with a comprehensive skill set.

- CI/CD Pipelines, Performance Optimization
- Jest, React Testing Library

Additional Skills:

- Load Balancing, Caching Strategies
- Fault Tolerance, Data Consistency
- Compliance and Security Measures
- Headless CMS

EDUCATION

B.tech from Computer Science

Abdul Kalam Technical University
(2018 - 2022)

Mohan Nagar Ghaziabad , UP

CGPA :-7.8

Brand Samosa , Noida-13—Intern Web Developer (3 month)

(Oct 2021 - Dec 2021)

:-Worked with **HTML, CSS, and JavaScript**
My proficiency extends to **hosting** and **optimizing websites**, refining both **technical skills and practical insights** into efficient **website management** and **optimization strategies**.
